## ABOUT ADRI

The Asian Development Research Institute (ADRI), established in 1991, is a leading multidisciplinary policy research think-tank known for its work in social sciences and its strong partnerships with policymakers, academics, civil society, and the media. ADRI hosts key thematic centers such as the Centre for Health Policy and the Centre for Studies on Environment and Climate, and has collaborated with sub-national, national, and international organizations, including the International Growth Center of the London School of Economics. With a global network of 250 researchers, ADRI has earned recognition from ICSSR and has welcomed Nobel Laureates like Amartya Sen, Joseph Stiglitz, Abhijit Banerjee, and Esther Duflo. Its grassroots initiatives in Bihar and Jharkhand, especially in literacy and vocational training, have shaped influential policy discourse. ADRI's State Resource Center received a special award from President Dr. A. P. J. Abdul Kalam, and its founder, Dr. Shaibal Gupta, was posthumously honored with the Padma Shri for contributions to literature and education.
